

CeDe News - March 2011

CeDe Road-rail wheel excavator

R-6097_v1.0

Basic machine Volvo EW140C and EW160C

Ready for works on rail

CeDe Road-rail machine based on wheeled excavators EW140C and EW160C

This Category 9C-machine, designed and manufactured to meet the EU standards EN 15746-1:2010 and EN 15746-2:2010, is equipped with BM Movtec quick couplers for hook-on connection of rail cassettes also in rear position.

Hook on, hook off

By using the machines boom and arm you can quickly remove the rail cassettes.

Ready for works on roads
